## REDYTOUCH KIOSK

With an ultra thin design, the RedyTouch kiosk stands in a class of its own. Its all stainless steel finish provides for an extremely high-end look and maximum durability. The RedyTouch kiosk has accessibility from the front with a hinged door and locking mechanism. The perforated stainless steel border provides a high tech look and functions as a ventilation system along with a fan located on the back panel. The RedyTouch can provide for a 17" LCD monitor and a 15" LCD monitor. The base gives you the option of mounting to the floor. If you're looking for a sleek, high-end kiosk that will last forever at an affordable price then RedyTouch is your choice.
